1.0 You may be aware that Finance Minister while presenting the budget speech for the financial year 2018-19 had interalia announced that in order to promote scientific thinking, the Department of School Education will make all efforts to increase the strength of the students learning science by atleast 20% during the year 2018-19.

2.0 The Department of School Education has made all necessary efforts to increase the enrolment in the Government schools of Science students. Apart from this, Department is also taking some additional steps like rationalization of posts of Science teachers in the needy schools.

2.0 As a large number of private schools also offer these courses in their respective school, I shall be grateful if you could kindly hold a meeting at your level of all the private schools in your district affiliated with CBSE, PSEB and impress upon them to enrol as many as number of students in class 11th opting for Science streams. This meeting is required to be held soon as the last date for admission in the schools is likely to be over soon.

Yours Sincerely

-sd-
