Subject: Awareness of students to take admissions in the Govt. Polytechnic Colleges.

[Handwritten notes across top: Please circulate this with all schools Principals & Diets for information]

Dear Ma'am,

This is for your kind information that the state government has established 26 AICTE approved Govt. Polytechnic Colleges for the intelligent and aspiring students to acquire quality education. After possessing the skill set, the students have a stronger/better chance for placements in various MNCs and Government departments. The students can even get admitted to various prestigious colleges/universities from all over the globe for higher studies.

2.   Students clearing their matriculation exam can directly opt for admission into the first year of any technical course of his/her choice and the students passing out with 10+2 vocational/Non-medical/Medical can also get admitted directly to the second year of the technical course of their choice.

3.   Students getting admissions in the Govt. Polytechnic College can avail the benefits of PMS Scholarship, CM Scholarship (For all categories, only available in Govt. Polytechnic Colleges), Fee Waiver Schemes and many other scholarship benefits from Govt. of Punjab and Govt. of India. Students can participate in many sports and cultural events from time to time and even compete at various levels representing their colleges.

4.   There are 1740 Govt. High schools and 1972 Senior Secondary schools running under your able leadership. There are approximately 5609 (1st year and LEET admissions) number of available seats in Govt. Polytechnic colleges. It is requested that you may order your School Principals/DEOs to motivate the students about Technical education and its benefits in their lives. The school Principals may even tie up with Govt. Polytechnic College Principals and take the students to visit the nearby Govt. Polytechnic College. (Contact list of the Polytechnic Principal is enclosed). If any team from Govt. Polytechnic Colleges wants to visit their nearby schools and communicate with the concerned students, then they may be allowed and data of the concerned eligible students may be shared with them.

ਦਫਤਰ: ਡਾਇਰੈਕਟਰ ਸਿਖਿਆ ਵਿਭਾਗ (ਸੈ.ਸਿ.) ਪੰਜਾਬ, ਸ.ਅ.ਸ.ਨਗਰ।

Brief Introduction about Technical Education

Technical Education plays a vital role in human resource development of the country by creating skilled manpower, enhancing industrial productivity and improving the quality of life of its people. Technical Education is instrumental in making the remarkable contribution to economic growth of the Developing Countries by way of suitable manpower production according to the needs of the industry, Society and the Global World as a whole. To produce fully skilled manpower/knowledgeable technocrats in the present era of science and technology is the need of the hour. Polytechnic education has responded to the challenges of industrialization for self-reliance. Technical Education covers programmes in engineering, technology, architecture, pharmacy.

Polytechnic education in India contributes significantly to its economic development. Most of the polytechnics in the country offer three year generalized diploma courses in conventional disciplines such as Civil, Electrical and Mechanical Engineering. During the last two decades many polytechnics started offering courses in other disciplines such as Electronics, Computer Science, Medical Lab technology, Architectural Assistantship etc. In addition, many single technology institutions are also offering diploma programmes in areas like Leather Technology, Sugar Technology, and Printing Technology etc. Many diploma programmes are also being offered exclusively for women in Women's Polytechnics such as in Garment Technology, Beauty Culture and Textile Design.

The aim of the polytechnic education is to create a pool of skill-based manpower to support shop floor and field operations as a middle level link between technicians and engineers. The pass-outs of Diploma level Institutions in Engineering & Technology play an important role in managing shop-floor operations. It is further an established fact that small & medium Industry prefer to employ Diploma Holders because of their special skills in reading and interpreting drawings, estimating, costing & billing, supervision, measurement, testing, repair, maintenance etc.

Polytechnics are meant to provide skills after class X and the duration of diploma programmes is 3 years, which means the trainee becomes employable at the age of 19 years. Any Student who has completed matriculation can get admitted into the first year of the diploma course. Any student who has completed 2 years of ITI or 10+2 Vocational/Non-medical/Medical can directly be admitted into the second year of diploma courses through the Lateral Entry Process.
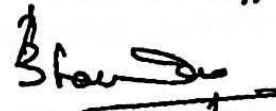

5.   Additionally, the school Teachers/Principals may be awarded extra points in their ACRs if they motivate and guide the students to take up technical education.

6.   Punjab State Board of Technical Education and Industrial Training, Punjab is in process to start admissions for session 2022-23. A brief introduction about Technical Education and the list of Govt. Polytechnic Colleges offering 3 year diploma courses along with the number of seats available is attached with this letter which may be circulated to the school principals/DEOs for further necessary action. School principals and DEOs may be instructed to inform the students about the attached leaflet so that students can benefit as much as possible, resulting in the bright future of the state.

Your kind consideration in this regard will be highly appreciated.

With regards,

Yours Sincerely,

(Rahul Bhandari)

Smt. Jaspreet Talwar, IAS
Principal Secretary, Govt. of Punjab
