Subject : Regarding Celebration of World Cancer Day on 4th of February 2023.

World Cancer day is to be observed on 4th February 2023. This year World Cancer Day 2023 marks the second year of the campaign "Close the care gap" to reduce the inequities that exist in accessing quality cancer services worldwide which aims at informing people around the world about Cancer and asking people to unite in the fight against the disease burden as well as inspiring and driving action to encourage healthy living and get regular check-ups.

It is directed to celebrate this day by creating awareness in general public which is the vital rule of the Programme. This disease can be controlled only with early screening and identification of the disease at initial stages. The public must be made aware about the symptoms, risks, and causes along with disease outcomes. This day is of utmost importance.

To achieve this following activities are to be carried out across all District

1. Awareness and education- this includes Public information campaigns in the March or street play to be organized by school children/ adolescents
2. Cycle Rally is to be organized to create awareness
3. Screening for Cancer (Cervical, Oral & Breast Cancer) at District Hospitals
4. Disseminating information through social media.
5. Health talks shall be given to the general public/ OPD patients by Doctors/ Medical officers/ Staff Nurses at all health facilities and by CHOs at all FWC/ SC level.

6. Health education at School:

- Foster making for healthy eating & active lifestyle.
- Sports activities such as Marathons/Walks in schools.
- Health talks shall be given by Doctors/ Medical officers at the Secondary and Senior Secondary Schools of their area.

It is informed that O/o MoH has sanctioned funds to celebrate World Diabetes Day on 14th Nov 2023 vide letter no. MoH/Mo/2022/918/AO/1/91913-975 dated 17.11.2022 (Copy enclosed). These funds may be utilised for celebration of World Cancer Day on 4th Feb 2023 from available funds of World Diabetes Day.
